Outstanding Origami Lessons

Origami is the art of paper folding - the magic of turning a simple square of paper into a swan, a flower, a fish or hundred's of many other creatures and designs - without tape or glue or scissors. Fun for all ages, origami can be done anywhere you have a scrap of paper.

Like everything, origami is best learned by doing. Origami builds spatial sense and an understanding of symmetry - skills vital to the development of intuitive thought. Origami creates beneficial mental stimulation, and, students learn patience and gain self-esteem.

In our workshops students will be able to create a barnyard full of 3-D animals, a flower bouquet, a field of butterflies, birds, boats, boxes, stars and more!

We offer two different workshops; **Begining and Intermediate.**

Each class will cover a wide variety of origami designs
